

## OUR MISSION

The Ontario Access Coalition is an independent Provincial, volunteer nonprofit organization that works diligently to keep climbing and bouldering areas open and helps to conserve the climbing environment by resolving access issues quickly as they arise and by proactively engaging with and educating the climbing community. Our team is committed to and passionate about working with the community, landowners, conservation authorities, and other property managers to educate, mediate and negotiate on behalf of climbers to bring all parties together in a mutual respect of each other's needs.

## CODE OF ETHICS

- Aspire to climb and boulder without leaving a trace
- Maintain a low profile
- Use existing trails
- Dispose of human waste properly
- Understand and respect historical ethics and restrictions
- Respect the rules
- Park and camp only in designated areas
- Climb and boulder safely
- Increased climber awareness of key plant species to be protected

## WHAT BECOMING A MEMBER MEANS?

Joining the OAC means you have two interdependent passions:

*a love of the outdoors for our provincial backyard,  
and the awareness of that feeling of climbing that  
Ontario rock and ice*

By uniting the climbing community across the spectrum, we maintain a dialogue between landowners to keep crags open. They say this provinces is "Yours to Discover", let's keep it that way.

## MORE INFO

Our website (and soon to be your website) has more information about how to join the cause, crag access updates, and crag info. Check it out.
